The Virtual Police Service

Innovation of the Operation

The possibilities of innovation using cloud services
To build a Virtual Police Service with mobile access

Drs. Wim Broer
Police SuperIntendant
Program Director VPS

A Fastlane to a Greenfield
Classical Crowd Management
Strategic considerations VPS Program
to recover Information Dominance by the police

• An integral approach of safety issues
  – To facilitate multi-agency strategies
  – To stimulate participation of inhabitants

• Increasing professional capabilities police
  – From Outside Inwards
  – From Fixed to mobile using a Police App Store

• Empowering front end with innovative power
  – Agile development cycles with involvement of users
  – Partnerships with private enterprises
Basic Approach VPK with App Stores
